## Spring 2025 Extended Day Activities

April 21th, 2025 - June 5th, 2025

We offer a great variety of after-school activities to Morningside Academy students! [Please review the extended day options below for Spring. You'll find the program details in the chart on the following page.](#) Note that there are no extended day classes on Fridays, during Professional Development days, conference weeks, and school closures. All classes are open to all ages.

To enroll, please complete the Extended Day Sign Up google form. Payment will be collected by our Accountant at the end of each quarter.

For all after school activities, we ask that students remember to pack an extra snack and reusable water bottle!

### **Monday - Yoga and Mindfulness**

Join instructor Sylwia Mazur Johnson for yoga and mindfulness. This class is filled with kid-friendly yoga poses and breathing exercises, mindfulness, games, relaxation, and a lot of fun! Children will build strength, focus, and flexibility along with kindness, compassion, and self-regulation.

### **Tuesday - Field Sports**

End your school day with an energetic hour of exploring field sports! Join PE instructor Rusty for a variety of fun activities to work on team-building, on-the-spot logic and decision making skills, leadership skills, coordination skills, and fitness. This may include volleyball, obstacle course, Foursquare variations, Cricket, track and field exercises, Ultimate Frisbee, Kickball, as well as learning and enhancing batting, kicking, passing, and throwing skills, and much more. There are also planned indoor games when the spring weather is too rainy. Be sure to dress for the weather and bring a water bottle.

### **Wednesday - Minecraft Coding**

Minecraft is a fun game both kids and adults all over the world love to play! Our Minecraft Modding pathway leverages this interest to teach students core computer programming concepts and how to make their own Minecraft mods (modifications). This pathway invites students to use Computer Science concepts, harness individual creativity, and practice problem-solving skills while making their favorite game more enjoyable with personalized mods. Instructors will build on what was taught last quarter, but beginners can also join! (The cost of this class also covers the [Minecraft Education](#) license fee.)

### **Thursday - Lego Brick Building**

Do you love building and want to learn how to create your own Lego creations?! This course teaches students how to design and build their own Lego models. They'll cultivate both their creativity and an engineering mindset. As a student, you'll get hands-on experience with a variety of Lego sets and learn techniques for building sturdy and intricate designs. This class is the perfect way to develop your problem-solving skills and unleash your creativity. No previous experience is necessary – just bring your love of Legos and a willingness to experiment!
